GLORIA ROSE | BIOGRAPHY

French-born and London-based, Gloria Rose is known to deliver hypnotic hard grooves with driving rhythms and layered textures, crafting electrifying sets that take dancers on a journey that leaves a lasting impression everywhere she plays.

Immersed in the world of classical music from an early age and a trained pianist, music has always been an important part of her life. And if it wasn't classical music, it would be her mom's varied taste in music that would play on repeat depending on the day. Fela Kuti, The Doors, Sade, Enya, a Miles Davis best of, or Jean-Michel Jarre, to name a few - it is no surprise that blending diverse sounds comes naturally in Gloria Rose's mixes.

As a M.A.S. resident, she has established herself in the underground scene, bringing her signature energy to some of the most dynamic and forward-thinking events. Known for her ability to captivate audiences with seamless transitions and refined track selection, Gloria Rose has performed at renowned institutions across Europe, including Tresor and Fold. Unrestricted by borders, Gloria Rose continues to refine her sound, blending rhythmic beats with powerful melodies to create unforgettable dancefloor moments.
